Mission to Tehran- 1968

Mission in Tehran-Hassan M.M. Tabib 2016-09-21 Cyrus Salaar, a German citizen, works for an insurance company in Hamburg. His employer orders him to go to Tehran, the country of his birth, in order to verify the authenticity of the death certificate of a young Iranian policyholder. He is supposed to have a car accident in Tehran. The insurance company suspects fraud. Cyrus's private interest in taking this dangerous trip is to retrieve the family coat of arms, which had to be left behind as his family fled Iran. He wants to give it to his mother for her 70th birthday. The coat of arms hangs on the entrance gate to his parents' home, an old villa that the secret police took over after the revolution. During his investigation in Tehran it turns out that the supposedly dead policyholder is alive, lives somewhere in Germany; he out to be a terrorist hunted by the Iranian authorities. One of the most feared members of the Iranian Secret Police wants Cyrus to give him the suspected terrorist's address. Cyrus refuses. He knows Iranian agents in Germany would liquidate the young man. That would not only be inhuman but also absolutely opposed his order. With an assassination by agent of the Iranian secret

police, the insurance benefits would again be due. Despite so many unexpected troubles with mullahs, he stays true to his goal. Under the nose of the secret police, in a three-phase plan of breath-taking action, Cyrus, and his Iranian friends try to remove the family coat of arms and sneak it out of Iran; an almost impossible action. An authentic, exciting novel from the realm of the Mullahs.

Our Man in Tehran-Robert Wright 2011-01-11
For the true story behind Argo, read Our Man in Tehran The world watched with fear in November 1979, when Iranian students infiltrated and occupied the American embassy in Tehran. The Americans were caught entirely by surprise, and what began as a swift and seemingly short-lived takeover evolved into a crisis that would see fifty-four embassy personnel held hostage, most for 444 days. As Tehran exploded in a fury of revolution, six American diplomats secretly escaped. For three months, Ken Taylor, the Canadian ambassador to Iran—along with his wife and embassy staffers—concealed the Americans in their homes, always with the prospect that the revolutionary government of Ayatollah Khomeini would exact deadly consequences. The United States found itself handcuffed by a fractured, fundamentalist government it could not understand and had completely underestimated. With limited intelligence resources available on the ground and anti-American sentiment growing, President Carter turned to Taylor to work with the CIA in developing their exfiltration plans. Until now, the true story behind Taylor's involvement in the escape of the six diplomats and the Eagle Claw commando raid has remained classified. In Our Man in Tehran, Robert Wright takes us back to a major historical flashpoint and unfolds a story of cloak-and-dagger intrigue that brings a new understanding of the strained relationship between the United States and Iran. With the world once again focused on these two countries, this book is the stuff of John le Carré and Daniel Silva made real.

Oil and the Killing of the American Consul in Tehran-Mohammad Gholi Majd 2006 Oil and the Killing of the American Consul in Tehran explores the Anglo-American tensions over the control of oil in Iraq and Persia after WWI and the impact of American Vice-Consul Robert Imbrie's murder. Using evidence from U.S. State Department documents, this detailed work argues that Imbrie was the victim of a conspiracy aimed at consolidating British power in the region.

Night in Tehran-Philip Kaplan 2020-11-24
Based on historic events, and frighteningly relevant to today's headlines -- a taut thriller about one American diplomat's year of living dangerously in Tehran in the days leading up to the Iranian Revolution ... In the style of Alan Furst, this suspenseful thriller -- based on real events -- places an idealistic American diplomat in a turbulent, US-hating Tehran in the days leading up to the Iranian Revolution. Backed by the CIA, and trailed by a beautiful and engaging French journalist he suspects is a spy, David Weiseman's mission is to ease the Shah of Iran out of power and find the best alternative between the military, religious extremists, and the political ruling class -- many of whom are simultaneously trying to kill him.

The Shah, the Islamic Revolution and the United States-Darioush Bayandor 2018-12-02
The Islamic Revolution in 1979 transformed Iranian society and reshaped the political landscape of the Middle East. Four decades later, Darioush Bayandor draws upon heretofore untapped archival evidence to reexamine the

complex domestic and international dynamics that led to the Revolution. Beginning with the socioeconomic transformation of the 1960s, this book follows the Shah's rule through the 1970s, tracing the emergence of opposition movements, the Shah's blunders and miscalculations, the influence of the post-Vietnam zeitgeist and the role of the Carter administration. The Shah, the Islamic Revolution and the United States offers new revelations about how Iran was thrown into chaos and an ailing ruler lost control, with consequences that still reverberate today.

Britain and Iran 1790-1980-Denis Wright 2003

Mission to Iran-William Sullivan 1981-11-01
Ambassador Sullivan tells of his many meetings with the shah and gives a unique insight into the character, the moods, and the motivations of that complicated man. He explores the political, economic, and social backgrounds of the opposition to the shah, and in doing so shows us the force of Islam in Iranian society and the flat impossibility of the shah's attempts to industrialize the country. Other highlights of this eminently readable narrative include the General Huyser mission, which Washington mindlessly thought could reverse a revolution that was all but completed, the evacuation of 35,000 American citizens from a country in turmoil, and the destructive seizure of the embassy compound in February 1979, a full nine months before the taking of the hostages. The policy recommendations that Sullivan made to Washington during the Iranian crisis were rejected by President Carter and Zbigniew Brzezinski in favor of policies that seemed, then as now, unrealistic. This account is valuable not only as a record of recent history, but as an example of how United States national interests can be damaged by the absence of clear, informed leadership in the White House.

Argo-Antonio Mendez 2012-10-25 Argo by Antonio Mendez and Matt Baglio - the declassified CIA story behind the Oscar-winning film WINNER OF 'BEST PICTURE' AT THE ACADEMY AWARDS, THE BAFTAS AND THE GOLDEN GLOBES Tehran, November 1979. Militant students stormed the American embassy and held sixty Americans captive for a gruelling 444 days. But until now the CIA has never revealed the twist to the Iran Hostage Crisis: six Americans escaped. The escape plot was run by Antonio Mendez, head of the CIA's extraction team and a master of disguise. Mendez came up

with an idea so daring and potentially foolish that it seemed destined for Hollywood... and indeed it was. He invented a fake sci-fi film called 'Argo' (from the actual name of the CIA mission, a reference to Jason and the Argonauts). After announcing the production to the movie industry, Mendez put together a team of real 1970s Hollywood actors, directors and producers - along with covert CIA officers. They would travel to revolutionary Iran under a foreign film visa, and while 'scouting locations' throughout the country they would track down the six Americans who were hiding out. After giving them false identities as part of the film crew, they would spirit them back across the border. One part 'Ocean's 11' and another part 'Black Hawk Down', Mendez's mind-bogglingly complicated and risky gamble paid off: each escapee was extracted without a shot being fired. Mendez is considered one of the greatest officers in CIA history. The story of this, his greatest mission, has never been told. Now an acclaimed film directed by and starring Ben Affleck, with Bryan Cranston, Alan Arkin and John Goodman' Antonio Mendez was cited by Richard Clarke as one of the top two or three CIA agents in history. He received the Intelligence Star for his rescue of six Americans from revolutionary Iran, and has received the CIA's Intelligence Medal of Merit and the Trailblazer Medallion. He continues to consult for the CIA. He and his wife, also a famed agent, were technical consultants on the television series 'The Agency' and founding board members of the International Spy Museum in Washington. Matt Baglio is the author of the New York Times bestseller *The Rite: The Making of a Modern Exorcist*. His writing appears regularly in the Daily Mail and the Associated Press.

The Mission of Arthur C. Millspaugh to Iran, 1943-1945-James Arthur Thorpe 1973 "In an attempt to enlist the support of the United States and to strengthen Iran's administrative structure, the Iranians during the first half of the twentieth century hired three American financial missions, the members of which were not connected officially with the United States government. Arthur C. Millspaugh headed two of the missions

... Upon his return to the United States in 1946, Millspaugh ... accused the State Department of withdrawing its support of his mission in mid-summer 1944, in deference to the opposition of the Russians and pro-Russian Iranians ... This study ... seeks to investigate Millspaugh's charges against the Department"--Preface.

Diplomacy and Murder in Tehran-Laurence Kelly 2002 When the Tehran mob broke into the Russian embassy and murdered its diplomats, the dead toll included one of the most brilliant and promising stars in the early 19th-century Russian literary and political firmament: Alexander Griboyedov. In this first biography of Griboyedov in English, Laurence Kelly paints a vivid picture of his remarkable literary and diplomatic gifts which were nevertheless overshadowed by tragedy. His book makes an invaluable contribution to the diplomatic history of Russia, the Caucasus, and Iran, while at the same time shedding much new light on the life and works of a writer and diplomat of considerable importance.

Unterdrückung und politische Prozesse im Iran-Nuri Albala 1972

Tehran Blues-Kaveh Basmenji 2005 More than two decades after their parents rose up against the Shah's excesses, increasing numbers of young Iranians risk jail at the hands of religious paramilitaries roughly their own age, for things their counterparts in the West take for granted: wearing makeup, slow dancing at parties, holding hands with members of the opposite sex. Every day anxious parents queue at courthouses to bail out sons and daughters who have been detained for 'moral crimes'. Kaveh Basmenji, who spent his own youth amidst the turbulence of the Islamic Revolution, argues that Iran's youth are in near-open revolt for want of greater freedoms, in furious defiance of the mullahs and their brand of sombre religiosity. Through candid interviews with young people, and in a careful assessment of Iran today (including a special chapter on the

implications of the recent election to the presidency of hardliner Mahmoud Ahmadinejad), Basmenji gets to the heart of the matter: What do Iran's youth want, and how far are their elders prepared to go to accommodate them?
